# hearbeauty<sup>®</sup>

It is no surprise that both design and hifi enthusiasts love clic.

The idea of a luxurious and functional furniture that hides what it needs to and still present sound in a stylish way, arose when Mike Fabricius was unable to find a furniture that was both functional and had a great design at the same time.

With more than 3000 vinyl records on the shelf and a large hifi system combined with a high demand for both sound and the visual result, he had no choice but design a furniture himself.

The result was clic.

clic is a well thought out combination of hifi and exclusive Danish furniture design. The furniture allows you to hide cables, speakers, subwoofers, gaming consoles and everything else that disturbs the eye – and make it a part of a stylish setup – without compromising the great sound and design.

clic is divided into three furniture series: **clic TV series, clic classic and clic custom.**

# CLIC TV SERIES

The clic TV series is designed to match the size of your TV screen.

It creates a beautiful symmetry in the room when the TV and the furniture are perfectly aligned.

Hide speakers behind the fabric door or remove the shelves to make room for a soundbar for an elegant setup with space for most of your gear.

The clic TV series comes in 2 depths: 26.5 cm and 37.5 cm.

Each depth is available in 3 different widths that match the width of 55", 65" and 77" TV screens.

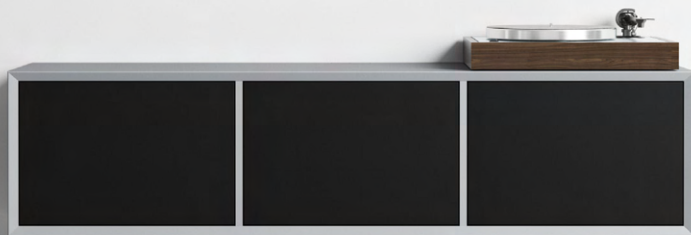

All models in the clic TV series come with one cable hole in the top plate and one in the bottom for easy and elegant cable management.

You choose the color of the furniture and the fabric door, as well as whether the unit should be mounted on the wall, on wheels or on alu stands.

Model TV65"2S

Model 230

Model 1541

Model 130S

# CLIC CLASSIC

With the clic classic series, you can choose from four depths, five widths, and five heights.

They can be combined in countless ways and offers plenty of opportunities to create a personal expression in the room.

The range of models and functions will solve your decor needs whether your wish is a stylish way to store your vinyl collection, music system, subwoofer or maybe your book collection.

You can play with the different colours or choose a classic solution, for example with our oak or walnut veneer.

You can dial up the minimalistic look and hide everything from your Bob Dylan collection to your Glenlivet's Whiskey behind doors or in drawers or you can choose a more unique expression with open rooms and let the furniture display your items.

It's all a question of style, taste and courage.

# CLIC CUSTOM

Didn't find what you were looking for among our clic TV series or clic classic models?

Do you have specific requirements for the size of the furniture?

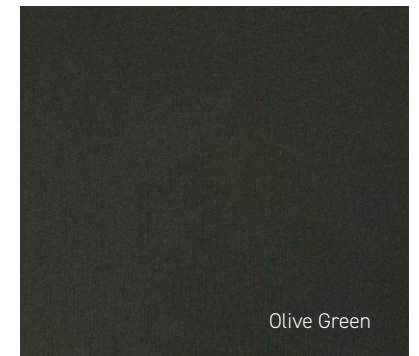

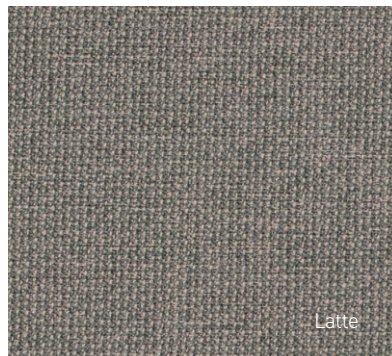

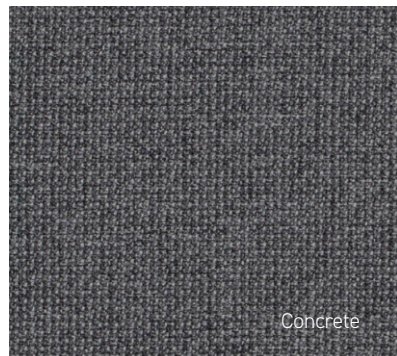

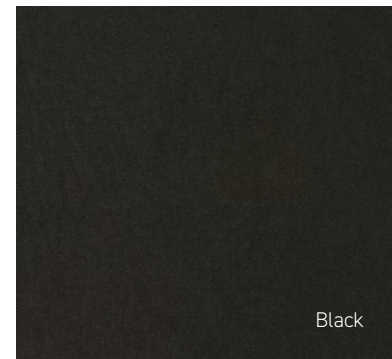

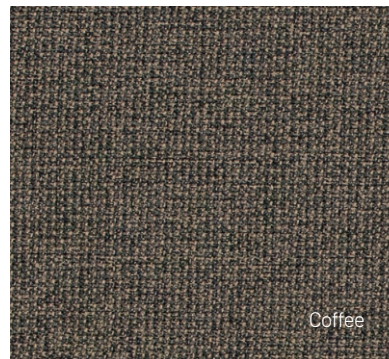

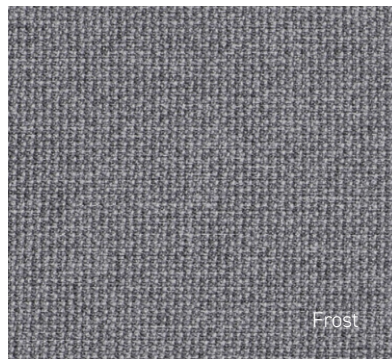

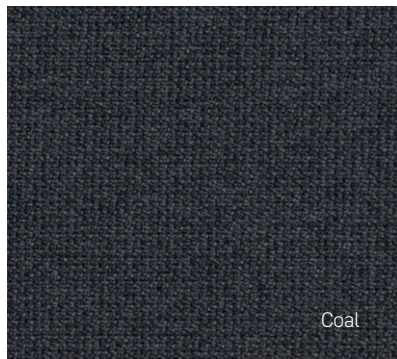

Visit [clic.dk](http://clic.dk) to see examples of custom made furniture we've created in the past and get inspired for how your dream furniture could look.

Contact us to learn more about the possibilities for a custom model, and together we'll find the perfect solution.

# FABRIC DOORS

The clic furniture are available with fabric doors in 10 different colours. The fabric doors allow you to hide speakers and music systems and send signals in and sound from the speakers out – without opening the door.

# FINISH

All clic furniture, wood doors and drawers are available in white, light grey, grey and black paint as well as two veneers, oak and walnut.

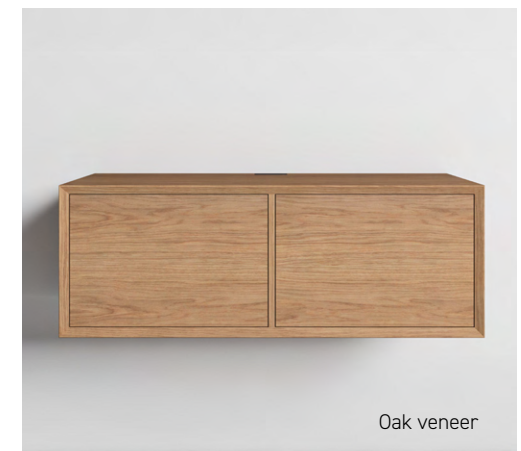

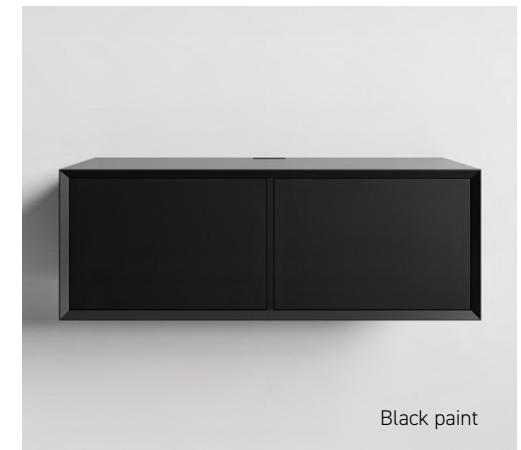

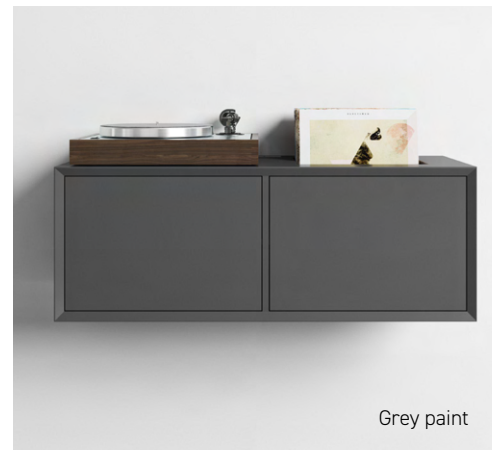

All design, development and production of the clic furniture are based in Denmark and all our furniture are made by hand.

Even the last coat of paint are done by hand to ensure a flawless finish and perfectly closed corners.

Our functions such as the removable back plates, our wall brackets and cables holes in the top and bottom are thought out down to the smallest detail

Our furniture are constructed to provide optimal strength and to hold a high amount of weight regardless if you place them on the floor, on stands or mount them on the wall.

All our furniture undergo a thoroughly quality check before they leave our production.

# MOUNTING

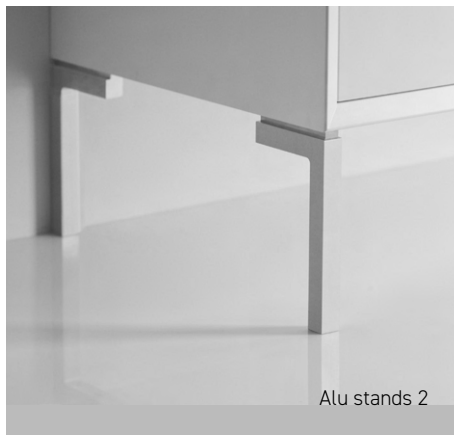

clic can be stacked using our magnet feet or mounted on the wall with wall brackets.

Most clic models can also be placed on alu stands 1, 2, 3, or wheels.

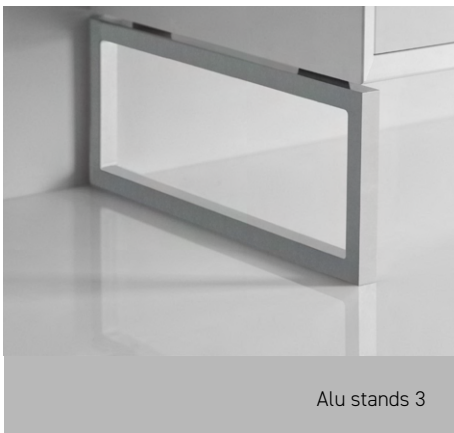

The alu stands are available in black or silver.

Alu stands 1

Alu stands 2

Alu stands 3

Magnet feet

# BACK PLATES

clic comes with removable back plates.

The back plates are positioned 5 cm forward from the rear edge of the furniture and are mounted with magnets.

Behind the back plates, you can neatly hide cables, power outlets, and more.

Cable cover 05D

Cable cover 05E

Ventilation

## CABLE COVER PLATES

All clic models have one cable hole center in the top plate as standard, but can be ordered with more or no holes. The cable covers come in silver, black and brass.

For instance, do you need cables from the furniture up to your flatscreen, a turntable or a lamp? Or do you need extra holes for our ventilation solution?

If you have devices in your clic furniture that generate significant heat, we recommend adding ventilation.

If you want to route cables from a TV screen into the furniture, you can also add a cable tray to conceal the cables.

# FUNCTIONS

## A WELL THOUGHT OUT FURNITURE

### VINYL HOLE

With a vinyl hole in the top of your furniture, you get a cool and elegant storage solution for your favorite vinyl records.

### VENTILATION

With a clic ventilation you can cool down the items stored behind a wood or fabric door.

### DRAWERS

The drawers in the clic furniture are divided with 2 metal sticks. The metal sticks can be placed in different ways to store all kinds of software or other items.

### BACK PLATES

The clic furniture has a 5 cm. advanced magnet mounted back plate. This allows you to hide cables behind it.

### FABRIC DOORS

The clic furniture is available with fabric doors allowing you to hide your music or movie system and control it through the fabric doors and allowing the sound to come out - without opening the doors.

### CABLE COVERS

clics cable covers are available in 5 different variants. Choose between brass or aluminum in black or silver.

### WOOD DOORS

The clic wood doors allow you to hide the items you don't wish to display.

### VINYL AND BINDER

You can store your vinyl records or binders in several of clic's furniture models, and still use the hidden space in the back of the furniture for cables etc.

### WALL BRACKETS

If you want to place your clic furniture on the wall you simple use clic's special designed wall brackets. You can mount your furniture completely up against the wall.

## SUB HOLES

With sub holes in your clic furniture, integrating subwoofers into your setup is easy.

We cut a hole in the bottom of the furniture for the subwoofer to play through.

Sub holes are available for three types of subwoofers: Lyngdorf BW-2, 8" sub, and 10" sub.

## TURNTABLE POND

With clics specially designed turntable ponds, you can integrate your turntable into your clic furniture for a sleek and stylish look.

Choose between a pond designed for a Linn LP12 turntable with Trampolin base board or one designed for selected Technics models.

Both solutions offer a functional and elegant display for your turntable.

## DRAWER

If you need drawers, most of our furniture can be delivered with this option.

The drawers feature a built-in divider system with two metal sticks.

The sticks can easily be adjusted to suit your needs, allowing the drawer to hold three rows of CDs or two rows of Blu-rays/DVDs, PS, or Xbox games. Alternatively, the sticks can be removed entirely for storing other items.

## VINYL HOLE

Store your favorite vinyl records in clics specially designed vinyl hole.

It provides a nice overview of your collection and makes it easy to flip through your favorites.

Depending on the depth of the furniture, the vinyl hole fits approximately 60-90 vinyl records.
